About This Game

Arctic Adventure is an episodic modification set in Half-Life Universe.

In this mod you will ride through the Arctic landscapes, discover Aperture Science secrets and try new weapons.

Play loud or look for by-pass routes, solve puzzles and advance stealthily.

You will encounter new enemies and a new vehicle on your way, besides, you can find the passcodes for secret doors and find something valuable behind them.

Features:

- + Make your own gameplay, enable-disable options in mod menu.
- + Play loud or try to complete levels stealthily.
- + Updated effects (explosions, gun shots etc)
 - + New enemies and guns.
 - + New vehicle and soundtrack
